Prof. Dr.-Ing. Peter Post

Website: www.wissenschaftsrat.de, www.festo.com

-
- Member of German Council of Science and Humanities (Wissenschaftsrat)
 - Vice President Corporate Research and Technology At FESTO AG & Co. KG
 - Honorary Professor at University of Applied Sciences Esslingen

Prof. Dr. Peter Post, born 1959 started his professional career with an apprenticeship as a toolmaker, and continued his studies to get a degree in mechanical engineering at the University of Siegen, Germany. He finished his work as research assistant in Siegen with a doctoral degree.

Since 1989 he is working at Festo AG & Co. KG in Esslingen/Germany in several functions in R&D. Currently, he is Vice President Applied Research, responsible for application research at Festo. He is an active member in several scientific networks and clusters for applied research in production and manufacturing within Germany (eg. Plattform

Industrie 4.0) and Europe (e.g. Manufuture, EFFRA). Prof. Post was awarded with the Deutscher Zukunftspreis 2010 of the German Federal President.

In 2012 he was appointed as honorary professor at the University of Applied Science in Esslingen.

In February 2017 he was appointed by the Federal President as a member of the German Council of Science and Humanities.
